MEMORANDUM FOR: Members, Technical Coordinating
Committee

You will recall that we decided that at our meeting on 6 June we will discuss the formation of additional Panels to overview those technical areas of importance not yet covered by the Panels established last month.

I would appreciate your coming to the next meeting with your suggestions as to the technical areas to be covered and the names of people you might nominate to participate on the Panels.

As a starting point, here is a list of all the additional areas that come to mind as possible candidates for Panel review. As our first agenda item next week, I will ask you to suggest deletions or additions to this list.

Donald H. Steininger
Assistant Deputy Director
for
Science and Technology
